

A man and a woman are sitting at a desk in a classroom-like setting. The man on the left is wearing a white shirt, a black bow tie, a yellow vest, and black-rimmed glasses. He is looking towards the woman with a slight smile. The woman on the right is wearing a white shirt, a brown vest, and black-rimmed glasses. She has her hair in two braids with a blue hair tie. They are both looking at a laptop computer that is mounted on a silver tripod. The background is a wall with a repeating pattern of small, stylized floral or scroll designs in a light brown color. A white rectangular box is overlaid on the image, containing the text 'SafeShops.be for web developers?' in a teal, sans-serif font.

SafeShops.be for web developers?

WEBPARTNER
SafeShops.be

SafeShops.be for web developers?

For you as a web developer, a correct and up-to-date service to your customer is of fundamental importance. In a sector of high growth with regularly changing regulations, you are a person of **trust**. Your customer expects his web shop to comply with the law, that it is safe and that the conversion always progresses optimally. Of course, your customer is ultimately responsible, but by being properly informed, you offer him a valuable and often much needed added value.

That's how you make the difference, and where SafeShops.be can help you with....

What does SafeShops.be actually offer you as web partner?

Clear information and tools for direct application.

Legal checklist

We provide you with our legal checklist to which a web shop must comply when you pass our certification. It contains all explanations to be immediately aware of e-commerce specific laws.

Updates

When legislation changes, we keep you informed with a simple email.

Security Toolbox

This contains tips & tricks to better protect a web shop against cybercrime. These in human language and handy for your customer.

What does SafeShops.be actually offer you as a web partner?

E-legal Day

You are invited to our e-legal day, a crucial seminar for this sector, informing you with the most legal current situation. You get free subscription as a web partner. Of course we expect you to be there in person.

Security Day

Safety is vital for our sector. That is why we organize the Security Day. You get to know the latest gadgets of cybercrime, but more importantly, how to combat it. This as well applies to "free as a web partner" and "presence principle".

You give the extra push

Answering the legal provisions still remains your customer 's responsibility. But with SafeShops.be's information and tools, you are an expert to guide your client through the complicated knot of laws and rules.

Let this be the extra push that your client needs to be fully compliant. And we gladly accommodate to give you that nudge.

If you, as Ambassador of SafeShops.be, introduce us to a new label applicant, we will offer you a € 50 discount. This amount can be passed to your customer or partly kept for yourself (50/50).

How does it work? Quality label

- Your customer requests the [quality label](#) at **www.SafeShops.be** with a specific discount code linked to your company.
(Receipt of Kickback after customer's payment to SafeShops.be)
- We start up the verification process together, providing your customer with the necessary documents (such as general terms, privacy policy, etc) in order to conform to the web shop.
- After all the conditions required for the web shop are fulfilled, the shop is subjected to a thorough analysis.
- After the OK from our independent law firm, the label is issued and may be placed on the website of the web shop.

How does it work? Security Seal

- Your customer requests the **Security Seal** at **www.SafeShops.be** with a specific discount code linked to your company.
(Receipt of Kickback after customer's payment to SafeShops.be)
- We start the verification process with you, whereby the necessary documents (such as questionnaire etc ...) are given to your customer to review the audit.
- After all conditions required for the web shop are fulfilled, the shop is subjected to a thorough analysis.
- After OK from our independent security audit office, the label is issued and may be placed on the website of the web shop.

Show that, also you, are a reliable partner!

We seek for constructive cooperation based on sound information and trust. If you actually go through and use the documents and tools we provide you and you prepare your customer for verification accordingly, you will receive the Web partner - SafeShops.be logo.

This can be prominently in the spotlight on your site.
